

DESCRIPTION:

The growth rate of real gross domestic product (GDP) is a key indicator of economic activity. For each publication, the distribution gives the percentage contribution of agriculture, industry, and services to total GDP.

The Index of Industrial Production (IIP) measures the real production output of mining and quarrying, manufacturing and utilities.

KEY LATEST FIGURES:

1. Quarterly GDP

In third quarter of 2025, the GDP growth was 11.8%, following the growth rate of 7.8% in the second quarter and 6.5% in the first quarter.
