

The national poverty rate declined significantly from an estimated 39.8% in 2017 to 27.4% in 2024.

This represents a reduction of 12.4 percentage points suggesting substantial progress in poverty alleviation over the seven-year period.

In count terms, approximately 1.5 million Rwandans came out poverty in the last 7 years between 2017 and 2024, averaging 214,000 individuals emerging from poverty each year.

As far as social protection is concerned, The EICV provides information about population groups seen as potentially vulnerable, such as the young, elderly, disabled, orphaned, and female-headed households.

The VUP survey data revealed that the number of VUP beneficiaries is around 410,000. While males make up 47.9% of the total population, but only 26% of VUP beneficiaries, indicating a higher proportion of female beneficiaries (74%). The largest share of VUP beneficiaries is under the NSDS program (28.8%), followed by Direct Support (22.7%), and Classic Public Works (22.5%). While the national poverty rate is 27.4%, the poverty rate among VUP beneficiaries is 40.5%.
